

PETTIS PAINTING

Project Guidelines

Exterior Project Guidelines

To ensure a successful painting project, please follow the guidelines below:

General Preparation

1. **Remove Objects:** Please remove any objects that are on or touching the area we will be painting or staining.
2. **Clear Surrounding Area:** Remove any moveable items within 5 feet of the painting area, such as flower pots, yard decor, etc. Foliage should be cut back a minimum of 2' from the areas being coated. This is especially important for the body of the structure.
3. **Vehicle Parking:** If we are painting the front of your house, please park your vehicles in the garage, on the street, or at the end of the driveway.
4. **Move Chairs:** Please move any chairs away from the project area.
5. **Clear Steps:** Remove any items from the steps leading to the project area (decks, porches) for the duration of the project.

Thank you for reading through these steps and we are eager to get started on your project. If you have any questions, please don't hesitate to call or text us anytime!
